WELCOME ADDRESS BY: AMB. A.A.A. OJAIDE, CPC CHAIRMAN

*“NONE OF US INCLUDING ME, EVER DO GREAT THINGS; BUT WE CAN ALL DO SMALL THINGS, WITH GREAT LOVE, AND TOGETHER WE CAN DO SOMETHING WONDERFUL”.
(MOTHER TERESA OF CALCUTTA: 1910 – 1997.)*

Welcome to Conference! This conference is bringing together some of the greatest minds ever in the history of Alternative Dispute Resolution (ADR), We are gathering together today on the continent of Africa, in Abuja, Nigeria.

All over the world, I welcome All attendees. Those who have travelled far and near; and those who join Us via virtual technology.

This conference is designed to make something wonderful happen in the dispute resolution space and in the professional practice of conflict experts and to challenge why Our world , why Africa and why the biggest black nation in the world is still not more peaceful, the persistent and growing turbulence of Our present existence.

Mediation is the bride of ADR; This year alone about 2000 (Two Thousand) distinguished professionals will be inducted into the different cadre of professional membership of the Institute. ICMC has about 20,000 (Twenty Thousand) members within its rank and file, it is the most prestigious mediation Institute in black Africa. There are other sister bodies even around the world who do great work in the conflict space. Let's make no mistake, the world today, Africa and Nigeria is better because of the great and magnificent strides of professional mediators in promoting peaceful coexistence and effective Justice delivery system. In other words, Our world would have been worse-off today without the great work of professional mediators and conflict resolution experts. Sadly, We have not had more unrest, injustice, strife, wars, hatred, division and bitterness in many facets of lives than We have today; What an irony!

The Theme of this year's conference is “RETHINKING MEDIATION STRATEGY IN A TURBULENT WORLD”.

There cannot be a better quorum of expert men and women put together from different parts of the globe to do justice to the theme than We have in this conference.

I am personally looking forward to the Keynote Speaker, HIS EXCELLENCY, PROFESSOR OLUYEMI OLULEKE OSINBAJO SAN, GCON, the immediate past Vice President of the most powerful black nation in the world do His address. His address will usher in and herald the very powerful tide of this conference as the other GREATS will open and expand the vistas.

PROTOCOLS

On behalf of the Governing Council, I welcome you all to the 2024 ADR Conference and Induction Ceremony. It is my pleasure to also announce that 2024 equally marks the 25th anniversary of our dear Institute. We would during the Induction Ceremony/Dinner honour founding members, past Presidents and Registrars who have served the Institute since inception for their vision and determination to press through with a noble concept despite the many challenges that they were confronted with in an attempt to realize their dream of building an institution that will champion the cause of mediation in Nigeria and beyond.

We convene today at a critical juncture in the evolution of our profession and the global landscape to examine the conference theme *Rethinking Mediation Strategy in a Turbulent World: A Global Perspective*. The complexities of a rapidly changing world, characterized by economic uncertainties, social unrest, and political polarization all demand a comprehensive re-evaluation of our mediation strategies.

THE GLOBAL CONTEXT

According to the United Nations Office for Disarmament Affairs (UNODA), the number of armed conflicts worldwide has increased steadily over the past decade. This trend has been made worse by factors such as climate change, resource scarcity, and technological advancements. The Global Peace Index reports that the world's overall peacefulness has declined over the past 17 years.

These statistics underscore the urgent need for effective conflict resolution mechanisms. Mediation, as a voluntary and collaborative process, offers a promising avenue for preventing violence, fostering dialogue, and building lasting peace.

To illustrate the effectiveness of mediation in addressing complex global challenges, consider the following examples:

- **The Northern Ireland Peace Process:** Mediation played a crucial role in ending the decades-long conflict in Northern Ireland. Through a series of negotiations facilitated by international mediators, the parties were able to reach a power-sharing agreement that has endured for over two decades.
- **The Colombian Peace Process:** Mediation was instrumental in bringing an end to the 50-year armed conflict between the Colombian government and the Revolutionary Armed Forces of Colombia (FARC). The peace agreement, facilitated by the Cuban government and the United Nations, has led to a significant reduction in violence and opened up new opportunities for peace building in the region.

Mediation In Action: Current Global Conflicts

Mediation continues to play a key role as can be seen in some current and ongoing global conflicts as follows;

- **The War in Ukraine:** Mediation efforts have been ongoing to find a peaceful resolution to the ongoing war in Ukraine. International mediators, including the United Nations and the European Union, have been working to facilitate dialogue between Russia and Ukraine, with a focus on ceasefires, humanitarian aid, and potential peace agreements.
- **The Ethiopian Civil War:** Mediation has played a crucial role in ending the Ethiopian Civil War, which lasted from 2020 to 2022 and reignited again mid-2023. The African Union-led mediation process facilitated a peace agreement that brought an end to the initial conflict and has paved the way for reconciliation.
- **The Sudanese Civil War:** Mediation efforts are ongoing to address the current conflict in Sudan, which was intensified by the coup in 2021. The African Union and the Intergovernmental Authority on Development (IGAD) have been working to facilitate dialogue between the warring parties and promote a peaceful resolution.
- **The Wider Middle East Conflict:** Mediation has been a constant feature of the Middle East peace process, with efforts to find a lasting solution to the initial Israeli-Palestinian conflict, which has now snowballed into a wider middle eastern conflict involving Israel, Hamas in the Gaza Strip in Palestine, Hezbollah in Lebanon, the Houthis' in Yemen, Iran and the Shi'ite militias in Syria and Iraq. International mediators, including Qatar, the United States, the European Union, and the United Nations, have facilitated numerous rounds of talks between the parties in order to de-escalate the situation and prevent it from deteriorating into an all-out regional war.
- **The Conflict in Northeast Nigeria:** Mediation has to some extent, been used to address the conflict between the Nigerian government and Boko Haram, a militant group operating in the northeast region of the country. Efforts to promote dialogue and address the root causes of the conflict have led to some reduction in violence and improved security in some quarters.

Adapting Mediation Strategies For a Changing World

In order to meet the demands of a turbulent world, we must adapt our mediation strategies in several ways:

- **Cultural Sensitivity:** Mediation must be tailored to the cultural context of the parties involved. This requires a deep understanding of different values, norms, and communication styles of the parties involved.
- **Inclusive Participation:** All stakeholders, including marginalized groups and communities, must have a voice in the mediation process. This can be achieved through community-based mediation, participatory approaches, and the use of interpreters.
- **Technological Innovation:** Technology can enhance mediation by providing new tools for communication, data analysis, and dispute resolution. For example, online platforms can facilitate virtual mediation, making it more accessible and efficient.
- **Preventive Mediation:** Mediation can be used proactively to prevent conflicts from arising in the first place. This involves early intervention, conflict analysis, and the development of preventive measures.
- **Building Trust and Relationships:** Establishing trust and rapport between the parties is essential for successful mediation. This can be achieved through active listening, empathy, and a genuine commitment to understanding their perspectives.

Challenges and Opportunities

Despite its successes, mediation faces several challenges in today's complex world. These include:

- **Power Imbalance:** Power imbalance between parties can hinder the mediation process, making it difficult to achieve fair and equitable outcomes.
- **Conflicting Interests:** When parties have deeply entrenched and conflicting interests, it can be difficult to find common ground and reach a mutually acceptable solution.
- **External Pressures:** External pressures from governments, interest groups, or the media can undermine the mediation process and make it more difficult to achieve a peaceful resolution.

However, these challenges also present opportunities for innovation and improvement. By developing new approaches and techniques, mediators can overcome these obstacles and continue to make a positive impact on the world.

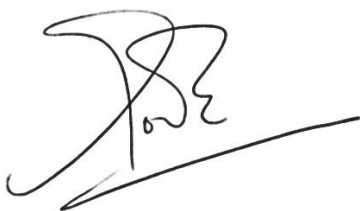

Conclusion

In conclusion, the challenges we face in this turbulent world are significant, but so too are the opportunities for positive change. By rethinking our mediation strategies, embracing innovation, and upholding our ethical principles, we can make a meaningful contribution to building a more peaceful and just world.

The future of world peace rests on the shoulders of every mediator here present. We must always have it as a personal and corporate goal, to foster peace and stability by any means possible wherever we find ourselves as the inevitable consequence of failure to preserve peace is loss of life, property and livelihood.

Let us commit ourselves to this noble endeavor and work together to shape a future where conflict is resolved through dialogue, cooperation, and understanding. We cannot and must not fail.

Thank you all for listening.
